

To whom this may concern,

I am writing to you in opposition to HB 7005. As a mother and free citizen I see this bill as a direct violation of my constitutional rights. The state has no business dictating any exemption for medical release by anyone beyond my own personal choice. The state has no business contracting anyone's personal health at any level and the unconstitutional nature of any discussion regarding this is outrageous. It is a violation of my rights as a free citizen for any "requirements" or "acknowledgments" to exist from the state regarding my medical statuses whatsoever to participate in what is paid for me by forced taxation. I should not be required in any manner to be required to have anyone acknowledge my choice to not vaccinate myself or my child.

Thank you for your consideration.

Please preserve our freedoms and constitutional and human rights. Vote no on 7005
