Dear Senator Kusher, Representative Porter and members of the Labor and Public Employees Committee

I fully support SB 2, HB 7191 and HB 5004. The minimum wage needs to be raised to \$15/hr and should be indexed to inflation. Full time employees should be able to support themselves. All of the benefits of the recent economic recovery has gone to the wealthy. Wages have been stagnate. To have a healthy society everyone needs to benefit and participate. The states that have already raised the minimum wage have shown that it not only helps the working poor but also the overall economy because the working poor put their earning back into the local economy.
