Subject: Smart Justice

Dear Co-chair Kushner,
I am writing in support of the bill to provide a Smart Justice System.

I am a volunteer tutor for Emerge CT where I work with people who are trying very hard to get their lives on a positive track after being incarcerated. I see first hand how many obstacles stand in their way, and we need to provide as much aid as possible to help them accomplish their goals. They have served their time, and further punishment just serves to downgrade our whole society.

Please continue to do all you can to help people with few advantages.

Sincerely,
Bonnie Sherman
