Subject: ACT SB 1 Family Medical Leave Trust Fund

I oppose this Act for the following reasons:

Number one, it is adding an additional burden on employees who are already struggling to make it by to feed their families, keep a roof over their heads and pay their utilities, medical expenses etc. To me this is just another tax on workers.

What happens if an employee never uses this program? They lost money they earned.

Many companies/businesses have Family Leave procedures already in place.

I feel there needs to be more research done and less burden on the employees.
