

HB 6292

To whom it may concern,

Please please don't allow this to pass.

I can not conceive the insanity of this. It's like saying if goods from a robbery are on the property the landlord or owner gets charged and jailed. This is like when everource just switches the bill to owner or landlords name when a tenant stops paying its plan extortion. Or even worse when they just cut you off because they can access the box and all your pipes freeze due to no one notifying me of the power being cut off.

Please help the people and deny this lunacy.

Sincerely

Mike Kopchick
