Re Senate Bill #556

Dear Planning and Development Committee,

I am writing to show my support for Senate Bill #556. Phillip Roselle, a 30-year veteran of the Norwalk Police Department has been dealing with severe medical issues since another officer accidentally shot him during training session at a gun range in September 2017, and deserves to be paid correctly for his disability and retirement with dignity and respect.

This bill is not only the right thing for him, but for all public safety employees in Connecticut that put their lives at risk for the community. I urge your support and thank you for your attention to this important issue and your commitment to all Connecticut public safety employees.

Best,

Juliana
