

To: Planning and Development Committee

This is a letter requesting your support of Senate Bill #556. I urge you to pass this important legislation.

In September 2017, Phillip Roselle, a 30-year veteran of the Norwalk Police Department was accidentally shot by another officer during a training session at a gun range. Officer Roselle has been dealing with severe medical issues ever since. He deserves to be paid correctly for his disability and retirement with dignity and respect.

This bill is the right thing for all public safety employees in Connecticut, as well as the right thing for Norwalk Officer Phillip Roselle. I urge your support and thank you for your attention to this important issue and your commitment to all Connecticut public safety employees.

Mary-Ellen Vollemans
