

*Dear Legislators of the Connecticut General Assembly:*

*I'm an adoptee and I believe it is a human right for us to know who we are and where we come from. I grew up in an era when shame and secrecy were the norm and we have come a long way since then. We now know that secrecy harms the very people it tries to protect and its not okay to keep laws in place that perpetuate that harm. I believe the legislature has a responsibility to modernize laws so they reflect the progress we have made in knowing how important the truth is for adoptees and their families. Please support SB 972 because its the right thing to do.*
