

Dear Legislator,

I write as a birthmother who was able to reunite with my son because he searched and found me. This is possible only with open records.

I was never promised privacy by the state or anyone else. In fact, closed record only hurts all of us involved.

Please fix this unjust situation and pass SB 972 and allow family members to reunite and to know one another, as soon as humanly possible!

Please contact me if I can be of assistance on helping get this bill passed!

Sincerely,

Sarah Burns
