

**Senate Bill 972**

Dear Legislators of the Connecticut General Assembly,

I am writing to ask for your support of Senate Bill 972, an act concerning access to birth certificates and parental health information for adoptive parents.

I am a birth parent whose son was born and adopted in the state of Connecticut in 1969. I did not know then or many years later that he would have an amended and falsified birth certificate. I strongly believe that he and ALL adult adoptees should have access to their original birth certificates, and the bill be both retroactive and prospective.

Thank you very much for your consideration.

Sincerely,  
Cheryl Chant
