

Good Afternoon,

*Please support and pass S.B. 972.*

*I am an adoptee as well as a birth parent.*

*I currently do not have access to my original birth certificate.*

*I believe all people should have the right to this information about themselves.*

*Currently people born after 1983 have rights to have access to their original birth certificates, but I born in 1977 am discriminated against and not able to have that same right.*

*It is a basic human right to know who you are biologically, with the current access to DNA testing and findings, access to your original birth certificate as an adoptee should be granted to all.*

*Access to medical health information is invaluable and currently I and many others are not afforded this opportunity.*

*Thank you,*

*Kathryn Ciak*
