

I am an adoptee Please Support S.B. 972

My twin brother and I were born in 1960 in West Hartford in the "secretive time". Due to AncestryDNA, 23&me and family finder we are not so much a secret anymore. Imagine finding out that you have half siblings in your 50's? Imagine finding out you will never meet your birthparent because you were to late, and your search took to long. Maybe now you can help me get copies of their death certificates so I know what medical conditions they might have had.

Please pass S.B.972, it's to late for me, but not for so many other adoptees

Thank you for your support!!

Maggie Smith Furstein
