

Hello,

I am an adoptee writing to ask you to support S.B. 972. I deserve to have the same right as all my fellow adult Americans have- the right to MY original record of birth. These laws were put in place to protect me from the label 'bastard', and at 45 years of age i can assure you i do not need protection. While i happen to already know what my original birth certificate says, i still cannot get a copy. Ee don't want special treatment, we just want equal treatment. Thank you.

Sincerely,
Anne Genovese (Female Demmerle)
