

Greetings To Whom It May Concern:

Seven years ago at the age of 47, I as an adoptee was able to request, receive and view my original birth certificate from the State of Illinois for the first time. The new adoption law there allowed tens of thousands of adoptees to have this right given to those never separated from their original family. Adoptees having access to our first record of birth is just one piece to a truthful story.

I urge you to change the law and give ALL adoptees in the State of Connecticut their OBC. I trust that this letter of encouragement will be well received by all. Thank you.

Sincerely,
Jennifer Dyan Ghoston
