

Please pass this bill! My birth son had to wait 48 years and pay lots of money to find me and learn his heritage, health history and meet his siblings! He had a right to know his history just like every non-adopted person does. His history was unethically withheld from him. Adopted people are not allowed access to their own personal information. Their birth information belongs to THEM!

Pass this "bill of rights" to birth information information.  
Vote yes on SB 972

Sincerely,  
Mary Jeffery a reunited birth mother
