

Support for S.B. 972

I am writing to ask for your support of Raised Senate Bill 972, An Act Concerning Access to Birth Certificates and Parental Health Information for Adoptive Persons. I am an adult adoptee born on 8/6/54 in Hartford, CT.

It is my belief that ALL adult adoptees should have access to their original birth certificates, and the bill should be both retroactive and prospective. Give us the right that every other American citizen has – access to our original birth certificates. I am soon to be 65 years old and would welcome the chance to finally see my original birth certificate.

Thank you very much for your consideration, please do the right thing, give us the right to something everyone else born in the US has. Sincerely,

Diane Lyons

Sarasota, FL 34231
