

Support for S.B. 972

I am sending this email in order to ask that you please support and pass SB 972. I am an adoptee and believe that sealing any child's birth record is a violation of that child's constitutional and human rights. The secrecy created by this act produces feelings of isolation and despair in the very people it is meant to protect. To have knowledge of our origins like all other non-adoptees would be a fundamental right restored by this bill.

Respectfully,
Thomas Mabry
Bethany, Ct.
