

Support for S.B. 972

Dear Sir or Madam:

I implore you to approve this bill! I am a 64-year-old mother of three and grandmother of five and still am not allowed by the state of Connecticut to know my identity. The state has sole possession of my birth certificate and my identity but somehow that right has inexplicably and tragically unfairly not been extended to me. It is a yearning of every human to know their roots and identities, and I, my children and grandchildren, are no different. To continue to deny this fundamental right to us, especially while bestowing it upon non-adopted state residents, is grossly unfair and in opposition to the progressive ideals of equality and justice which Connecticut has always respresented.

Thank you for your consideration,

Dorian McCarthy
