

Support for S.B. 972

Please support SB 972 and restore the constitutional right of similarly-situated persons to be treated equally under the law. It's 2019 -- it's time to update the law. I'm an adoptee and know what it feels like to be denied the most basic information about oneself. The state has no basis to continue to keep secrets from adults - there is no longer any role of protecting children.

Sincerely,
K. McClone
