

My mom was born in 1934 and was placed in a place in Corbin Kentucky. It was called the Galilee. Both her and my aunt were there and adoption was never allowed. She wanted to go to Europe with my dad and tried to find a way for years to be able to get a passport. No birth certificate no passport. I just lost my mom last June and I am for being issued birth certificates. They don't have the same freedoms that everyone else takes for granted. As all as mom wanted to do was see other places, needless to say her and my dad took a few train trips together to see the United States. Which they did twice only thing she could do. Her dream of extended travel was never met. Her wish could not be fulfilled. Please let other people have the same freedoms we all do. Thank you.

Sincerely

Sharon McGee
