

Hello,

My name is Erin Merrigan , I am a Birthmother /First Mother .I am 61 yrs old and in 1981 my boyfriend (Now Husband) & I had a son . We were still in college and just started dating so we were not prepared to be parents. 4yrs. Later we Married and had 4 additional children . Even thou we placed our 1st born son Brendan with a Adoptive family it was not out of fear of ever knowing him ! We always planned to reunite when he was an adult .

We are lucky ones who have a relationship with our 1st born son and he does have a relationship with his 4 siblings .

I firmly believe all adoptees need to have their original birth certificate and information on their birthparents to feel whole as a Human Being . Please vote Yes for Adoptees to give them their ""Own" Birth Record.

Thank you. Erin Merrigan
