

Please support and pass Senate Bill 972. My son was adopted 50 years ago so it is possible his birth mother is now deceased but, nevertheless, at this point he has the right to know his birth information both for health reasons and for his children's health. There was never any information on the birth father. Please pass this bill now for my son and all other adoptees born within the time frame prior to 1983. Thank you, Karlene Mullen, Southbury, CT 06488
