

Support for S.B. 972

I am an adoptee and I admin a group for adoptees and those connected.

I believe all people have a right to information about themselves it is a matter of equality. My personal search journey was long and hard even with DNA. After many many years and lots of help I found my birth parents. They both had passed. Most of my questions will never be answered. I ask you with most heart felt feelings, please do not make adoptees wait until it is too late! Please vote for SB972! Thanks for taking the time to read and consider this very important human need!
