

I am asking you to please support and pass S.B. Bill 972. An Act concerning access to original birth records by adult adopted persons, which would restore the right of every adopted adult citizen in Connecticut to obtain a copy of their original, true birth certificate. I have friends and clients who are adoptees. I strongly believe that All adoptees should have access to their original birth certificates and that the bill should be Passed.

Thank you very much for your consideration.

Sincerely,
Eileen Stecker
