Tesitmony in Opposition for H.B. 5898 for assisted suicide

Dear Friends,

It is the responsibility of elected officials to serve and PROTECT the life and wellbeing of their constituents: Life not the right to assisted suicide. Please be mindful that people can be hurting and in bad places in a season or moment of life but the next day or even hour, they feel completely different. Ending life prematurely is a mistake and should be avoided at all costs.

I have just finished a Christian healing course through Global Awakenings in Mechanicsburg PA. During that course, there are miracles, signs and wonders still being preformed through the precious name of Jesus Christ. He still heals today.

By passing a bill that purports that it is OKAY TO END LIFE before a natural ending, legislators are saying we believe this is a good way to end your life. There will be people in a time of crisis who are seeking for hope and perhaps cannot find it at that moment who may decide prematurely to end their lives. Once that life is snuffed out, there is no going back. Who knows the potential of that life in the future once they have been healed and made whole (SOZO healing)?

Through prayer, cancers have been erased, tumors disappeared, limbs grown out and the dead raised in the name of Jesus! He is the author and finisher of our lives and man should not meddle in the process by accelerating the decision for people to die.

God forbid that this bill pass. Then what would be the next taking of life?

Dear God, protect the constituents of CT from bills that prematurely end lives. Please guide and direct the leaders of CT and give them your wisdom and let them seek your ways to know how to best serve and PROTECT their countrymen. They have a serious responsibility to serve and protect. Please let them remember their own loved ones and treat their constituents as they would family members. Love is the answer. More God. Send more love through these legislatures and guide their steps. In the name of Jesus. Amen.

Thank you. Respectfully submitted this day by Karlene Guerette.
