

To my legislators,

It saddens me to find us back here again.

We CANNOT aid in the discouragement of the terminally ill, in letting them believe they have no use in this world unless perfectly healthy or without defect.

We MUST not participate in the ever more serious illness, their despair.

To profit off it, is an even bigger crime.

Please. Vote no to HB 5898

We have no right to end life prematurely, regardless of the reason.

Kathleen Prescott
