

I am writing to let you know that I am **opposed** to legislation that would permit physician assisted suicide in our state. This bill, if passed, would be an affront to human dignity and would send a message that life is expendable and without purpose. We must not go down this road. If we do, the moral boundaries protecting the sanctity of life will begin to erode in more ways than just end of life issues. Who is to judge when life should end? That is God's realm, not ours. Please vote no on this bill and protect the dignity of every person.

Sincerely
Rev. Anthony J Smith
Pastor
St John the Evangelist Church
Watertown Ct
