

9 February 2019

To whom it may concern,

My name is Ashlea Bryant and I am a 27 year old mother of 4 and currently also expecting another baby girl in June. I have been working with the St. Gianna's Center since 2014 when they were at their first building for 5 years. They have been nothing but a God send from the heaven up above. I found there website while looking for any type of help I could get and I seen that they were offering what I couldn't even dreamed of. From that moment I spoke to my dear volunteers I felt at home. They have supported and encouraged me to do better and be better, they have blessed me and my children in so many ways! I was welcomed with open arms and if there was ANYTHING they could do to help me they did! Those wonderful woman at that Center are like my family! I have never for a moment in these 5 years felt they EVER misled, misguided or lied to me! They are the real deal! I honestly have no idea where I would be without the St. Gianna's Center. They have provided my babies with milk, pampers, wipes, clothing anything I could of needed. Even if they didn't have it, they found away to get it for us. We have prayed together, these woman pray for me and my children. I have introduced my mother and my father to these woman. They can too give testimony to the blessings they are in mine and so many other woman's lives. When I recently this last October found out I was pregnant with my daughter, I was so scared and unsure. The Center was right there to provide reassurance and comfort and emotional support. If they go away so many women and children of ALL ethnicities will be lost. They are friendly, open-minded, God fearing woman who want to see you and your children happy and healthy. I have recommended the Center to several of my families and friends. They are nothing but genuine LOVE! With that being said, these Centers are a necessity! They help so many people and want nothing in return. Please don't take my family away.

Signed with LOVE,

Ashlea Bryant
