

I am writing, as a CT resident and parent, to say that I oppose the passage of HB 7199, SB 858 and SB 94 and HB 5277.

This is not coming from a place of anti-vaccine rhetoric. It is coming from a demand for choice and an awareness that the HPV vaccine is one of the most dangerous vaccines on the market, causing death, infertility, seizures, paralysis, etc. It is no longer recommended in Japan due to side effects and there are numerous lawsuits around the world. Where risk exists, there must be choice.
