

I am writing to oppose SB 94.

I have several deep concerns with this legislation:

In all other areas of medical treatment, minor children need parental approval. This is to safeguard their right to informed consent. Per the National Childhood Vaccine Injury Act of 1986 all parents must be given the Vaccine Information statement (VIS) for all vaccines being given to a minor child.

<https://www.govinfo.gov/app/details/USCODE-2010-title42/USCODE-2010-title42-chap6A>

This is to safeguard our rights to true informed consent. Pharmacists also would not be able to perform any type of exam at the time of administration to confirm that the child is in good health before receiving the vaccine as is standard practice at any pediatrician's office.

Thank you so much for your time and consideration.

Sincerely,

Lisa Bauerle
