

To whom it may concern:

It is very sad to hear that these three bills will put in danger our rights as parents. As a parent, I take the vaccination protocol very seriously and it is my right to be inform and to take action on these vaccinations.

I do not support any of these three bills as I feel that they are taken my rights away.

Sincerely,

Claudia Bouchard
185 Bultertown Rd
Waterford CT 06385

1. HB 7199 = The HPV (Gardasil) vaccine will be MANDATORY for boys and girls to enter 9th grade.
2. SB 858 = Kids will get the HPV vaccine without parental consent.
3. SB-94 = Pharmacists can issue a vaccine to kids 12 and over (this means if bill #2 passes, your child can go get a drink at CVS and be asked if he wants a vaccine!)
