

To Whom it May Concern,

I am writing to express my opposition to the following bills: HB 7199, SB 858 and SB94.

I am 100% for vaccinations. Both of my boys have been vaccinated. It was my choice to do so. I chose to do so because I believe that the ones that they received are effective.

The HPV vaccine has way too many negative side effects. It is too new to be able to tell if it is effective or not.

No vaccine should not be given to my child without my consent.

We do not live in a dictatorship. They are my children and I vehemently oppose the government telling me that I have to vaccinate my children. Especially since I don't believe the flu vaccine nor the HPV vaccine are effective enough!

Thank you for your attention to this matter.

Have a great day!

Allison Calvert
