

I am emailing you today to tell you that I OPPOSE the passage of HB 7199, SB 858 and SB 94.

Connecticut has these bills being raised:

1. HB 7199 = The HPV (Gardasil) vaccine will be MANDATORY for boys and girls to enter 9th grade.
2. SB 858 = Kids will get the HPV vaccine without parental consent.
3. SB-94 = Pharmacists can issue a vaccine to kids 12 and over

Gardasil has caused MANY adverse reactions due to their vaccine. It's insane that the government is trying to own our bodies now. Insane. I've had HPV twice, actually. I know what I'm talking about. HPV is not something we need herd immunity from. The HPV vaccine should be a choice. Children should not be getting ANYTHING. Without parental consent.

I think this is a huge overreach as far as government control and I believe that parents and only parents should be making decisions regarding their children's health. It should never be the government's decision to give a vaccine or anything else to a child without parental consent under any circumstance.

Please please do not pass these bills.

Please. I fear I will have to leave this beautiful state. My children receive all of their vaccinations. Except for HPV. It is not safe. And these bills, allowing the government to make health decisions for my children. Truly scares me.
