

Dear members of the Public Health Committee, I am writing to OPPOSE SB 94 I am opposing this bill because Pharmacists are not trained to determine a patients eligibility for vaccines or properly administer them. I do not agree that Pharmacists should be allowed to offer drugs to children without a medical exam or prescription. What if there is an adverse reactions? How well are they trained to recognize and treat this? And, parental rights should not be removed. Please vote NO on this bill. Thank you.

Signed, Christine Gallo Ridgefield, CT
