

I am writing in opposition of SB 94 AN ACT ALLOWING PHARMACISTS TO ADMINISTER THE INFLUENZA VACCINE TO CHILDREN TWELVE YEARS OF AGE AND OLDER.

Where is there a need to expand the need of this vaccine? A vaccine that does not prove to be effective and goes against parental consent. It is our children therefore the parent's right to choose. According to the National Childhood Vaccine Injury Act of 1986, all parents are to receive the Vaccine Information Statement (VIS) for all vaccines being given to a minor child. SB 94 would be in violation of that.
