AN ACT CONCERNING COASTLINE RESILIENCY TO SEA LEVEL RISE.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

That the general statutes be amended to require the Department of Energy and Environmental Protection to study coastline resiliency to rising sea levels and to report back to the General Assembly within one year with recommended policy changes and identification of issues on which the state, municipalities and the federal government should cooperate to best preserve the state's coastline.

Statement of Purpose:
To ensure coastline resiliency in light of rising sea levels.
