

Hello,

Being from New Haven county and working in the City of New Haven, I fully support the extension of runway(s) at Tweed Airport in effort to make New Haven more accessible and convenient to get to.

Being in the hotel industry, you can imagine the importance of this topic as often times, accessibility and cost to get to New Haven detours potential customers/groups/events to take place in New Haven.

Happy to provide more input on this matter, please contact me if needed.

Antony
