

I am opposed to the committee bill which contains an all rider requirement for helmet usage. I have been riding for nearly 30 years and fully capable of making that choice by myself. 31 states allow freedom of choice regarding helmet usage for most adults Connecticut included. I have no problem supporting the under 21 helmet bill that's also being considered. I am also a CMRA member for 30 years and they have been the best at making sure we have good laws here in Connecticut. I along with them can work on a compromise to get the under 21 bill passed. Thank you
