

To Whom It may concern:

I am in support of lengthening runway 02-20. I am a local business of East Haven situated next door to the airport. My address is 250 Dodge Ave. East Haven, CT 06512.

We have never been inconvenienced by noise pollution or air quality.

New Haven desperately needs to improve its infrastructure and it begins with Tweed New Haven Airport. We need to attract additional business's and people and be able to transport them conveniently from the New Haven area.

Personally, I am forced to travel to Bradley or the New York airports on average 20 times a year, adding many hours to my transportation schedule. This is unnecessary burden, when we have a viable airport in our backyard. Dodge Ave has been extended and fencing is in place. There should be no reason why we can't extend the runway the additional footage necessary (approximately 600ft) within the boundaries that are in place now so that we may have larger planes land at Tweed safely and have the ability to be transported to other areas of the country other than Philadelphia.

I strongly support this bill, and would encourage you to do so too. We must make Tweed an airport that works for the New Haven community!

Sincerely,

Roger Levine, President
