Ref: Tweed Airport

To whom it may concern:

We are a six rental home complex that overlooks Tweed New Haven Airport.

We are in favor of expanding the runway at Tweed. New Haven needs to be proactive in getting the business and collegiate communities more mobile in our area. We need to be understanding of the fact that Tweed is an asset for our city. Bringing more airlines to our airport would result in more options for local business travelers and pleasure seekers without having to commute to New York or Hartford. The need to be where you need to be FAST is a necessity for New Havens future. New Haven is becoming more of a walking city! More public transportation is needed and Tweed would be a part of that solution. The ability to get to a national forum is an asset for businesses and travelers in New Haven.

Tweed New Haven Airport has been servicing Connecticut residents for a long time. Bringing more jobs and opportunities by expanding the airport will expand the economic development of this city and neighboring businesses.

Thank you and you have our support,
