

Please support the bill to allow Tweed airport to extend its runway. It has been too long that the airport has been held down and has lost out on being the airport of choice for the greater New Haven area. American airlines service has been a complete success but an airport with only one airlines can only go so far. Having United and Delta return would be a boon for area travelers, news jobs created, increased patronage at local businesses and increasing the airports income thereby reducing the need for local funding.

Thank you, Steven Pappas.
