

To whom it may concern,

I have lived 2 miles from Tweed for 5 years, and I've never taken any flights from there. This is unfortunate because I fly frequently to international destinations for work. I'm always so annoyed that I need to take a limo or train to NY or NJ. It would be amazing if we could get a quick hop service to NYC or Boston airports. Of course I would welcome the chance to connect to US flights as well. I feel the lack of an airport in our vicinity holds back economic growth in the area.
