

Are you kidding me!!!! With the state of affairs in Connecticut our legislators are coming up with more ways to spend money we don't have??? Do you realize Connecticut residents are leaving in droves and it's not because of they need a loop trail??? They're leaving because it's too expensive to live here. Governor Lamont has already said more taxes are coming our way. Every single legislator should be going over the budget with a fine tooth comb to find ways to eliminate spending not increase spending. Stop spending money we don't have!!!
