OLR Bill Analysis
sHB 6749

AN ACT TO REORGANIZE THE ZONING ENABLING ACT AND PROMOTE MUNICIPAL COMPLIANCE.

SUMMARY

This bill reorganizes the municipal zoning powers statute (CGS § 8-2) and, for municipalities exercising zoning powers under this statute, it:

1. requires them to demonstrate, or risk losing discretionary state funding, that their regulations comply with the bill's requirements concerning the (a) provision of varied housing development opportunities and (b) promotion of housing choice and economic diversity in housing;

2. requires the regulations to provide for, rather than encourage, a variety of housing development opportunities to meet local and regional needs;

3. requires the regulations to be designed to affirmatively further the purposes of the Federal Fair Housing Act;

4. eliminates a requirement that the regulations be made with reasonable consideration as to the “character” of a district; and

5. prohibits the regulations from imposing on mobile manufactured homes and associated lots conditions that are substantially different from those imposed on other residential developments.

The bill also (1) requires municipalities to comply with existing law’s affordable housing planning requirement by January 1, 2021, and (2) requires the housing commissioner to convene a nine-member working group to study state zoning requirements related to housing
choice.

Lastly, the bill makes minor, technical, and conforming changes.

EFFECTIVE DATE: July 1, 2019

AFFORDABLE HOUSING PLANNING REQUIREMENT DEADLINE

Existing law requires every municipality, at least once every five years, to prepare or amend and adopt an affordable housing plan. The plan must specify how the municipality will increase the number of affordable housing developments in its jurisdiction. The bill specifies that municipalities’ first plan must be prepared and adopted by January 1, 2021.

MUNICIPAL ZONING WORKING GROUP

The bill requires the housing commissioner to convene a nine-member working group to study the requirement that municipal zoning regulations:

1. provide for a variety of housing development opportunities that meet state and local needs, as the bill requires (see “Housing Development Opportunities,” below); and

2. promote housing choice and economic diversity in housing, including housing for low- and moderate-income households.

The working group must examine (1) how the housing commissioner should determine compliance with these requirements, (2) the form and manner in which municipalities must provide evidence of compliance, and (3) how compliance should be incorporated into municipal affordable housing plans (see above). By January 1, 2020, the commissioner must submit a report to the Planning and Development Committee on the working group’s study and recommendations, including any recommended legislation.

Membership

The housing commissioner must appoint the following working group members by August 30, 2019:
1. two each with expertise in (1) fair housing issues, (2) state or local planning, and (3) addressing homelessness in Connecticut;

2. one who represents a municipal advocacy organization;

3. one with expertise in the housing construction trade; and

4. the Office of Policy and Management (OPM) secretary or her designee.

REQUIREMENTS FOR MUNICIPALITIES THAT ZONE UNDER THE STATUTES (CGS § 8-2)

Municipal Compliance

Beginning January 1, 2021, the bill requires municipalities to demonstrate to the housing commissioner, at least once every 10 years, that their regulations:

1. provide for a variety of housing development opportunities that meet state and local needs, as the bill requires (see “Housing Development Opportunities,” below); and

2. promote housing choice and economic diversity in housing, including housing for low- and moderate-income households.

The housing commissioner must prescribe the form and manner of showing compliance after consulting the municipal zoning working group established by the bill. The commissioner must provide such guidance to municipalities by April 1, 2020.

Additionally, the bill requires the commissioner to notify the OPM secretary if a municipality does not demonstrate compliance. Such municipalities are deemed ineligible for discretionary state funding until (1) the housing commissioner notifies the secretary that they are in compliance or (2) the secretary expressly waives their ineligibility.

Housing Development Opportunities

The bill requires zoning regulations to provide for, rather than encourage, the development of:
1. housing opportunities for all residents of the municipality and local planning region, including opportunities for multifamily dwellings, consistent with soil types, terrain, and infrastructure capacity, and

2. housing that meets the needs identified in the state's Consolidated Plan for Housing and Community Development and Plan of Conservation and Development.

**Manufactured Homes**

The bill prohibits zoning regulations adopted pursuant to CGS § 8-2 from imposing on manufactured homes, including mobile homes, built to federal standards and with a narrowest dimension of 22 feet or more, and associated lots and parks, conditions that are substantially different from those imposed on:

1. single family dwellings and associated lots;

2. multifamily dwellings; or

3. lots with multifamily dwellings, cluster developments, or planned unit developments.

Under current law, (1) manufactured homes and lots cannot be treated substantially differently from single family dwellings and lots with single family dwellings and (2) manufactured home developments cannot be treated substantially differently from multifamily dwellings or lots with multifamily dwellings, cluster developments, or planned unit developments. The bill removes references to manufactured home developments.
