OLR Bill Analysis
SB 953

AN ACT ESTABLISHING A CYBER TECHNOLOGY COMPETITION FOR CERTAIN STUDENTS.

SUMMARY

This bill requires the Military Department to establish, within available appropriations, a cyber technology competition for Connecticut secondary school students. The competition must be held for the purpose of encouraging these students to collaborate with government agencies and private industry to strengthen and secure information systems. Such competition must be held annually at the State Armory in Hartford and the Military Department must promote the competition with an outreach to school districts within the state.

Under the bill, the Military Department must (1) establish rules and guidelines for implementing the cyber technology competition and (2) post them electronically on the department’s website.
