To Whom It May Concern:

I am writing to express my support of Bill HB 7250. I believe this bill is important for our children who need the freedom, space, and time to develop their social skills, let out their energy, and learn to engage and play with their peers. Adding additional recess time during the school day will make schools a place where students learn the important responsibility of interacting with their peers and loving school.

Thank you,

Elizabeth Bechtold
