Dear Senator McCrory, Representative Sanchez and all of the esteemed members of the Education Committee,

I am writing today in support of HB7250 AN ACT CONCERNING THE IMPROVEMENT OF CHILD DEVELOPMENT THROUGH PLAY. I support the bill because I truly believe that children learn as much or more through play as they do through our standard curriculum and education methods. The current goals and expectations for our kids are challenging and expecting them to stay focused without breaks for movement is making it harder for the kids and the teachers. As a mother of three I often compare our kids to puppies, if they don’t get out and run/play it immediately reflects in their behavior choices and ability to focus, haha. The school day is long, particularly for the younger kids, I feel in the long run they will more successfully reach their goals if they are given more time to just be kids! Thanks so much for your time.
