Hi. I’m Katie Volpe and I live in New Fairfield, Connecticut. I’m 9 years old

I’m the kind of girl that doesn’t need a lot of recess, but that doesn’t mean bill HB7250 won’t help me.

The kids who need more recess, which is like 90% of the class, have a hard time sitting still and it’s disruptive. For example, behind me someone cab be banging a water bottle on the floor and I can’t hear the teacher. So that person can’t learn. I can’t learn. And everybody else can’t learn.

So I think bill HB7250 helps 2 groups of kids. The first group is a smaller group of kids, like me, who keep getting disrupted. The second group, is a bigger group that needs more time to get their energy out so they can concentrate and learn.

Please help pass bill HB7250

Thank you and have a nice day.
