Good time of the day Members of the Education Committee:

I am currently a student at the YWCA New Britain working on improving my English language skills. I know from my own experience and that of my friends that there is not much daycare in New Britain for babies and very young children. Also it is so expensive for parents especially who want to start own business. Many women can’t work right now because the daycare for children under 3 is not available but they want to work.

I think this project could fix this problem and give a huge support for them. I will be hope that this bill be passed and help lots of people in our community who want to start their own businesses.

Sincerely, „Caucah”
