

LYME LAND CONSERVATION TRUST, INC.

April 29, 2019

Dear Members of the Finance, Revenue and Bonding Committee,

I am the Executive Director of the Lyme Land Conservation Trust. I strongly oppose Section 1 of SB 1137 and Section 5 of SB 1138 both of which would require nonprofits, including land trusts, with "significant" savings accounts, endowments or pension funds to pay into a state "community development account" the equivalent of 25% property tax.

The Lyme Land Conservation Trust has been protecting and conserving land for over 52 years. We steward over 3,000 acres and provide free access to our many recreational trails. We offer free informational and educational programming to all ages of the public throughout the year. We maintain and steward our land while also doing scientific research to ensure the longevity of local flora and fauna.

This proposal would divert critical resources from our land trust's ability to acquire and manage open spaces and other natural resources that benefit our quality of life and local economy. It would penalize our land trust for our efforts to set aside funds to help secure our organization's long-term viability and to care for our land trust's properties and easements in perpetuity pursuant to best management practices (The Land Trust Standards & Practices). This proposal would also undermine relationships with donors who want their donations to support land conservation and not a state tax.

This proposal would add a financial burden on our organization, threatening our ability to care for land entrusted to us for the benefit of future generations.

Please vote NO on these proposals that would tax land trusts.

Sincerely,

Kristina White
Executive Director
Lyme Land Conservation Trust
Lyme, CT
